1)What is ISSB?

(ISSB) - Inter Services Selection Board commonly known as ISSB, representing ISSB Kohat and its detachments at Gujranwala, Malir and Quetta. ISSB is the premier human resource organisation which selects future leadership for the armed forces of Pakistan. ISSB acts as nursery for the Armed Forces of Pakistan. The candidates reporting at ISSB are subjected to an elaborate selection system and the ones with requisite leadership potentials are recommended to undergo training in the three services academies...-- Mission is to Select potential officers for the defence forces of Pakistan who have the requisite mental, moral, social and dynamic qualities to make successful leaders during peace and war.

The above mission sets a very sacred and tough challenge for the organization which can only be met with true dedication, selfless devotion and unflinching resolve to set and meet the standards. Inter Services Selection Board follows a set of time tested protocols to analyse and predict human personality and along the way has earned a respectable name and fame to its credit...

3) Command by GTO

Indoor Activities :

All the activities are simple, Just remember a few things Dont try to be over smart, Stay serious, Take charge of your team...

* Participate in all activities make your observer realise that you are a leader and always remember (You Command Respect not demand respect)

GTO --Group testing Officer..(remember he alone can take stand for your RECOMMEDATION), so give your best short....

1--Group discussions

The group discussion or group discussion task has assumed great importance. In the Group Testing Officer Task or G.T.O Task, the candidate creates the first impression on the Group Testing Officer (G.T.O) and other members of his group. The good performance of the candidate in the task of group discussion creates a good impression on the Group Testing Officer, and enrich his role in subsequent group tasks. As first impression is the last impression, hence the candidate must try his best to show his worth in group discussion.

During group discussion all candidates are arranged to sit in a circle. In the beginning every candidate introduces himself, like which city he belongs to, his educational qualifications, hobbies etc. Thereafter, the group discussions exercise begins. In this task, usually, two subjects are read out to the candidates and they are required to choose one of them for the sake of discussion. The subject which is agreed upon by the majority of the candidates is accepted by the Group Testing Officer for discussion.... You should be iniative and should speak at any cost.... ans speak for 2 minuts for 3 times.... total 5 to 6 minuts.... 20 minutes are total for Group discussion if this is Go0d then he will enhance the time of this task otherwise no... GTO just check the logic and main thing is that can u prove yourself in 10 persons...?? this is the big thing.... just speack speak and speack.... in this you can show youself a selfish like if some1 start to speack beat him/her ,donot stop till and but in out door tasks like prougrasive task n half group task n command task etc... in these task prove yourself u r not a selfish... you should be co-operative n helping in out door tasks also should be an at first.... if u speack n speack in Group planing n Group Discussion both r in do0r tasks.. GTO is with you,,you selection may b 80 % if your psyche is correct... Main vote is of psychologist...

*****{ topics for group discussions plz visit here on ma page....<http://www.facebook.com/board.php?uid=126379560762125&start=0> old topics of issb... but always repeats

2---Group Planning Exercise

This exercise begins soon after the Group Discussion, It is an indoor task, where the Group Testing officer reads out the narrative and with the help of the sand-model or sketch map explains the situation to the candidates. The map or model contains the scale, legend etc. If the candidates required any clarification to some pints, then it is cleared by the Group Testing Officer. Thereafter, the candidates are to write down their individual solutions in the paper provided for the purpose. The candidate are not allowed to consult each other while writing down their solutions. The candidate have to write down their chest numbers on the tip of the writing papers. The time for this written work is about 10 minutes. Thereafter, the candidate are required to discuss among themselves the situation and problems so as to arrive at a group solutions or plan. Every candidate is desired to express his views on the situation. All the candidates must arrive at a group plan. In the case the whole group is not unanimous in deciding the solution, then the plan accepted by the majority of the candidates is presented as the plan of the group. Then one of the candidate who is selected by the group itself stand up as a spokesman and present the plan to the Group Testing Officer. The time limit for discussion presentation is the observation and study of natural phenomena all around him. The time limit for discussion and presentation of the group plan is usually 20 minutes. After the presentation of group plan, the Group Testing Officer may ask the other candidate to give comments or criticism or suggestion. If any, to improve or modify the plan.

For Group Planing HE will check ur participation ...for military planning polish your maths.....for example...if a car is moving at speed of 20km/hr how much its going to cover in 8.5 mins? (hopefully my question makes sense)

this typ of Qs are there is Interview Qs

listen very well to GTO..... In Miltry planing or Group planing GTO will speaks alot,he will try to change ur mind from that model... but never ever talk with any1... nd try to solve the mathematical Qs... GTO will make a long storylisten to it(jo storry sunata h)) well.....and there will be only few things to keep in mind/important.....again logic and attitude matters.....

Always remembers the conditions hwich he will tell u about that plan like time ,speed, Distance, about Roads (he will tell u ye kacha road h,, ye paka road h...)

Secondly during planning every one will give his opinion so listen to others too and give your opinion with logic.... coz GTO is watching you all and he know's who is doing well..

do show initative when he ask who wil become commmender....generally he chooses the worst person first

(not obvious but from experience)

Outdoor Activities :

* Some of the fundamental rules which the Group Testing Officer clears to the candidates before beginning the tasks ;

1. Out of Bounds Rule..

The whole ground area and any other structure painted red between the start line and the finish line, and their helping materials and loads are out of bounds to the candidates. There is punishment for any candidate or any object that touches the out of bounds area. The defaulter have soon to go back to the star line of that obstacle. If any object touches the out bounds areas, then the object should be carried back by the defaulter to the stat-line and then it should be brought forward again.

2. The Four Feet Rule...

The candidates are not permitted to jump any distance exceeding 4 feet either in length or in height. Such distances, are to be crossed with the assistance of the helping materials (ropes or bellies).

3. The Group Rule...

Every obstacle should be crossed by the whole group with its material and load, before the next obstacle is tried by anybody in the group.

4. The Time Rule

The task should be concluded in 40 minutes. There is no time limit for each of the four obstacles which are included in this task.

*** Tasks

1----(progressive group task)

This task falls in outdoor series of tasks. In this task a group of 8 to 0 candidates are required to cross 4 obstacles of hindrances or restrictions in 40 minutes as a whole group. In tackling these hindrances, the candidates have to attach much importance to bridge, lever and swing as well as the helping material which they have to carry while crossing obstacles. Group testing officer will explain the nature and rules of task in the beginning.

40 mins, 3 parts, 1st and 2nd part are the easiest one and 3rd impossible...

""starting progressive group task telling your group to make an idea gives good impression on GTO""

Think on what you can do to make an impression?

****Helpful Hints for Progressive Group task....**

In tackling the obstacles of "Progressive Group Task", there are as a matter of fact, three main principles which are involved. They are, lever, bridge and swing. The plank or planks that are employed as helping material can be used either in the form of a lever or bridge according to the circumstances. A rope should invariably be tied, as the case may be, to the remotest end of the lever or bridge. This is very essential because it becomes impossible for the candidates to get or pull back the plank once they crossed over.

2---(Half Group Task)

In Half Group Task candidates of a group who are, usually 8 to 10 are divided into two groups. In this task, each half group has to face only a single hindrance. They must carry the main material and the helping material with them, on crossing the obstacle to the other side of the obstacle.

Example

Within the starting line and the finishing line, there are two wooden platform Q and R and a moveable drum P. The middle portion of the drum which is marked red, is out of bounds. There are also three small planks lying outside the starting line. The candidate should cross over from the starting line to the finishing line with the aid of those small planks.

3----(Semi group task) same principlejust he splits the group into 3 halves....best opportunity to show your guts.....

4--- (command task).....

In this task, each candidate in the group, is selected in turn as commander by the Group Testing Officer. The commander chooses three or four candidates as his assistants for tackling an obstacle. The commander will be successful in his task if possesses qualities of a leader. He should be very intelligent in the selection of his assistants, in imparting them proper brief instructions, in getting labor out of them and assisting them properly whenever required. The assistants of the commander should also strive for the success of their leader. All the way, they should carry out his orders with sincere spirit and loyalty. The main purpose of the Group Testing Officer in the performance of command task, is to assess the value of the candidate as a commander. He also gets a glimpse of the qualities of the assistants of the commander, The candidates should also prove themselves to be useful, sincere, and loyal subordinates.

The time allowed for the execution of the command task is usually 8 minutes.

Take initiative to be commander like go first, stay in middle and come at the end... (He wont choose you if he has doubt in your abilities or if your are performing well, just to know you well)...

give your best.. what ever your commanders ask you to do ...do it immediately (even if he wants you to lift 40kg big drum) and if you think its wrong ask him Mr commander if its like this what do you say? dont tell your commander your idea is stupid.....even if it is.....just give your suggestion.....thats all.....one thing more listen well to GTO when he is explaining to you abt task....if you got wrong conveying your group what he said you ruined all of your hard work..... Always take control on ur jawans..... dont take them easy... look at them what they are going ?? are they talking or not ?? stop them.... with cool mind.... check the foul

being commander choose the best person for best work.....stay in between your groupguide them, help them, try to clear them first (if you managed to finish your task)..*** The candidate as a commander, must see that nobody stands idle.

He must give utmost importance to the items of planning, supervising and execution of the work.

He should select a place which can enable him supervise the work in a most efficient manner.

6---- (interview with GTO)

just general will ask you abt maths, can ask your weakest and strongest points.....general knowledge questions, islam, pakistan.....

it happens when GTO will call u for a Coomand task...

5(Final task).....Final Group Task

In the series of Group Testing Officers' outdoor tasks, the "Final Group Task", is the last task. The time allowed in this task is usually 10 minutes but generally it is shortened by one or two minutes. As this task , once again is a task of group as whole, hence the qualities of team spirit, co-operation, initiative, proper planning, etc will count much.

Example

In the following obstacle, the candidates are given a rope, a plank and a structure. It is also their duty to take wounded man on the structure. The red portion is out of bound in this task.

use that word which will the GTO use.. if he say Rope then say it rope there not rassi..... ok

(flank=phatta, drum is drum, rassi=rope, jump, seeri=ladder) just that.....just kidding.....its important tooo give your best short.....acutally its like progressive task but THEY SEPERATED THEM BECAUSE in progressive task you dont knw each other so they want to know if you can work in new environment with new ppl and how you react and treat them whereas in final task you know your group well they want to check how you will work with ppl you know ...

6(Obstacles).....

doesnt matter how much you do in 2 mins.....they want to look you expression how u do them.....it doestn mean you couldnt do one and still they will select you....i mean number doesnt matter.....

Individual Obstacles

It is the individual task of each candidate, where candidate has to face every obstacle or hindrance or restriction in his individual or personal manner. These obstacles are usually 10 in number which are to tackled by a candidate in a brief time of 3 minutes only.

1. Long jump.
2. Walking over inclined small wooden planks.
3. Crawling like a monkey.
4. Waking across parallel ropes.
5. Rope climbing
6. Passing through tyre.
7. Tarzan swing
8. Tarzan jump.
9. Crossing over horizontal plank.
10. Running over inclined plank.

Story writing Tips

1. Take a while to actually think of a story before stating to write. 5 to 10 sec are enough if you have practiced at your home. Those who dont practice sit idle for 30 sec but still cant come up with a plot for the story. "Practice makes a man perfect".
2. Do not write childish stories like " She was w...alking alone on a road at night when all of a sudden..... a lion came before her and she started screaming then superman came for her rescue" Try to make a little bit practical stories
3. I personally find sentence story more difficult then picture story. Because in picture story u can carve out anything..
4. In case of picture story you need to look at the picture, think of something relating to the situation. try to include each and every character in the picture and the surroundings.
5. Usually the following sequence is adopted... first 2 3 lines give an introduction of the main character and PAST. 2 3 lines tell about the PRESENT and what is happening in the picture and the last 2 3 lines tell about some positive future happening from this scene.
6. You would have to write 5 to 6 stories in total, Do not include Army in all the stories. At max include army/navy /airforce in 3 stories.
7. Try to include something of your past in the stories, to make them more real.
8. Try to avoid accidents, tragedy, death, flood, terrorism in the stories..

Why Do you Want To Join PAF/Army/Navy.....???

First Impressions

Most people make an initial opinion of a stranger within the first five minutes of meeting them. According to research candidates' impressions are made up of the following:

Body Language and image (70%)

Tone of voice (20%)

What you say (10%)

As soon as you enter the building you need to be polite to everyone you meet. You need to remain calm and confident, give a firm handshake, and remember to make eye contact. You need to put both yourself and the interviewer at ease by being down-to-earth whilst remaining business-like, it is often quite a good idea to have a few conversation openers, especially if the interviewer takes you to the interview room, it helps break the silence..

Interview Techniques

The interview is not only a chance for the interviewer to assess if you are the right person for the job, but it is also an opportunity for you to see if the forces are suitable for you.

During the interview you need to look for opportunities to be proactive and ask your own questions or try to lead the discussion where appropriate. Questions should reflect your keenness to work for the Forces...

Keep your concentration levels up during the interview and make sure you listen to the responses the interviewer gives you. The worst mistakes happen when people end up asking questions about topics that have already been covered, or don't hear or understand what the interviewer has said.

Key points:

Make sure you give the interviewer your full attention

Wait for them to finish speaking, before you answer the question

Make sure you ask open questions, to ensure you get full answers

Check you understand everything that has been said

What are your biggest accomplishments? This should be job related, and is a chance to show your competency

Where do you see yourself in five years time?

Points you need to remember:

Smiling is a good positive signal, as it reaffirms your good nature

Maintain eye contact

Relax do not rush or fidget

Mirror the interviewers techniques, if they laugh, laugh with them

Maintain an alert position, sit up straight, don't slump, but be comfortable

Always have a confident and honest attitude.

Tips For Psych Test:

Suggestion for those who are going for ISSB.....do practice for your writting test...specially the physo test and one thing they call SELECTION DOZIER FILE in which you get time based question ...they will show you a word for 6 to 7 sec(but they say we will give u 10 seconds ,but they will give u 6 to 7 seconds remember it).you have to write one complete sentence...and there will be 100 words for example

Love= I love my country (can be your response)

be careful 70%of your interview is from this.write wht you are or you have practiced.....just to manage your time and to get idea how to write good sentences....

2nd thing you get in the selection dozier file are...Picture stories.. they show you 4 pictures and you have to write a story on every picture in 4 mins I mean they will show u pic for 30 seconds... u have to write it in 3 minutes n 30 seconds).....good idea is to write on army, social work, your profession, key issues like kashmir, or regarding pakistan. and dont forget to write using STAR technique (SITUATION, TASK, ACTION, RESULT)

Start with any supposing name should be 4 things in story ,which will show your character.....

-Aim

-Ability

-planing Ability

-Reward at the end

After completing this you have to write 2 Pointer Story same timing....

she was alone in her house then all of the sudden.....(you have to make and write a story on this) just an example.....

Remember don't try to cheat or be oversmart.

There are some other written test before these but they are relatively easy and not that much worthy but you need to do well in them as welll.....

Write An Event at First Day:

prepare..... EVENTS.

1. Unforgettable event of my life.
2. Aim of my life.
3. Sweetest event of my life.
4. Sappiest day of my life.
5. Future of my life.
6. Worst moment of my life.
7. My ambition in life.
8. Turning point of my life.
9. Highest achievement of my life.
10. Painful event of my life.
11. Charming period of my life.
12. Successful event of my life.
13. Defeat event of my life.
14. Bad period of my life.
15. Worry of my life.
16. Latest dream of my life.
17. Happiest dream of my life.
18. Pleasant dream of my life.
19. Shocking news of my life.

Unforgettable moment of life... most important

5) Interview Quiz'z

** ISSB + Initial Interview of PMA/PAF/NAVY...

Interview.....

The first thing they see in you is how you answer question in the interview. When they ask you a question wait for 2 to 3 sec and then answer, If you don't know the answer just say Sir I am sorry I don't know the answer and if he says No just give it a shot you say I am sorry sir I rather give you a right answer than a wrong one..sum Sexual Qs will also be asked by them... from boys n sum of girls too..

20-45 mins duration...(just for ISSB candidates..)

brush your math, physics (ohm law, one of there favt.), islam (basic dates you need to remember) like jhang badr date? hajj? namaz? wht is ghazwa? difference b/w nabbi and rasool?

then pakistan (borders of pakistan), imp places.....quaid e azam, iqbal sahib.

affairs.....?

why you want to join army? (logical reason) not mugay bachpan say shook (shock.....??) tha.....stupid answer.....

weakest and strongest point? and how you justify them? they should not be like affecting your personality or have an effect on the job you are applying for.....atleast prepare 5 of them

can bei am determined (merit), addicted to tea (de-merit)

be clear and try to speak wht you are.....coz they know wht you are by selection dozier file.....
